Your Role in the Card Ecosystem

Manufacturers sit at the center of the card supply chain. You bring together design, materials, components, security features and production expertise to turn an idea or program requirement into a finished card or credential.

Your work connects nearly every other segment of the industry—from suppliers developing materials and technologies, to personalizers preparing cards for individual users, to issuers placing those cards into the market.

At the Center of a Connected Ecosystem

- **Suppliers:** Provide materials, components, equipment and technologies
- **Manufacturers:** Produce finished cards and credentials
- **Personalizers:** Individualize cards with data and security
- **Issuers:** Bring cards to end users
- **End users:** People and organizations worldwide

Your Impact on the Industry

Manufacturers enable secure, innovative and connected card solutions used around the world. By producing high-quality, reliable cards, manufacturers support the growth of payments, identity, access, loyalty, transit and other markets—helping organizations and individuals interact, transact and move through their world with confidence.

Who Qualifies?

Manufacturer Membership is for organizations that operate a manufacturing facility engaged in producing finished cards or credentials in accordance with applicable industry practices and standards.

- Payment cards (credit, debit, prepaid)
- Gift and loyalty cards
- Identification and government credentials
- Access control and employee cards
- Transit and transportation cards
- Membership, healthcare and insurance cards
- Plastic, metal and alternative-material cards
- Contact, contactless and dual-interface cards
- Other secure or non-secure finished card products
